

- I've learned a lot thanks to you
- Thank you for telling us all these things about taxes. I really enjoyed it
- First of all, thank you for the time you spent with us. I found this little game very nice and interesting
- It was great because I learned lots of things I didn't know and I found answers to questions I had been wondering about for a long time
- Thank you for making this game called "Nice Taxes" for us like this. I found out what taxes are through this game
- Thank you for teaching me so much about taxes. It was very interesting. Goodbye
- Thank you very much for explaining life and taxes to us
- Thank you for spending this day with us, because it was fun, and I didn't like being a tax evader, but the coins tasted good
- Professor, I want to thank you for the game you set up for me and my companions. I found it very precise and the game was very interesting. So I really thank you for the opportunity we were given today
- I really liked this project because I learned how the government works and how taxes are paid in adult life
- Thank you for the emotion you gave us, I will always remember the fun and the reason you taught me. Thank you so much
- Thank you for the good things you taught us. With you I've been able to figure out how taxes work. I played the part of a citizen and I agreed with all the decisions the government took. Thanks to you I was really able to get inside the game and you got me interested
- We thank you for this very difficult topic, that is difficult for all of us. Thanks for this surprise lesson, and for the game you organised
- Thank you for helping us get to know taxes in such a pleasant way, many thanks from the governor
- Thank you for explaining how taxes work, I promise that when I'm a grown up I'll be a good citizen
- I had a lot of fun today and I found out what taxes are. Thanks for explaining to us and for being with us and giving us such fun
- Thank you for explaining this "political dilemma" that I did not understand. Thank you!!
- Thank you for this instructive morning and for explaining the function of taxes, it was all very interesting
- Your lesson was very exciting and allowed me to understand better the role of citizen that I will play as a grown up. I hope you have a good trip to Rome and that you'll pay the right amount of taxes. Say hello to all the students at your university. A big hello to you and I hope we'll meet again
- Thank you for a good day, I learned things I didn't know, it was a very interesting and difficult topic, you explained it well!

- Thank you for this wonderful experience, I had a lot of fun and I also learned what the taxes game is and how it works
- I really enjoyed this project and you were friendly, patient and kind, and the chocolate coins were yummy ... Thank you Professor!!!
- Thank you very much for the day at the Town Hall and for the explanations you gave us through this game or, as I would call it, a lesson about the lives of rich and poor people, and thank you for giving me the joy of having fun through the things I learned, I will cherish them always
- Thank you so much for explaining everything very well and clarifying things
- Thank you for coming here for this nice taxes game. You really caught my interest with what you said and I very much enjoyed this meeting about a topic we are going to have to face. Thanks again
- Thank you so much, I had a lot of fun and learned new things and I made a new friend, it was great to play this game all together
- Thank you for teaching me what taxes are and for letting me play with taxes
- Thank you for explaining this topic from daily life, playing a great game
- This lesson was really stimulating! I learned that the government is not always right (like today). I thank you for this and... I hope you are not a Po supporter
- I had a lot of fun playing nice taxes this morning, it was a lovely and fun project, you were very good at explaining, and I also wanted to thank you for coming from Rome to San Giorgio. I had a lot of fun, thank you very much
- Government, people, decisions, these are the words that we have learned having fun thanks to you, Franco
- Thank you for explaining what taxes are, you explained this topic, which is very hard to understand. This topic was very interesting
- The game we played was very nice and we learned lots of important things
- Thank you for the fantastic, interesting and educational morning spent together with you. Above all I have to thank you for talking about a difficult topic in a fun way
- A huge thank you for this experience. I felt like an adult
- As I was part of the government, I had a lot of fun administering taxes and counting the money. This game has shown us what it is like in the real world. It was good fun!
- This morning I enjoyed finding out what taxes really are, namely 40%, and the time to implement them
- Thank you for what you taught us and for giving up your time to talk to us about taxes, and I really liked how you made it clear for us: a good game
- I liked it when they put the coins in the Treasury

«... this game or, as I would call it, a lesson about the lives of rich and poor people... »

- I thank the professor because thanks to him I have learned new things and how taxes are collected in everyday life as well. I really liked it when we all gave our opinions on the taxes to be collected

- I would like to thank the professor. I really enjoyed this trip into the future

- I liked it because I found out how government works in adult life. I found out how difficult it is in real life because taxes are high. In the game, they were not so high, and there was a big difference because we paid using chocolate money. We found out what adults do when they can't pay their taxes

- I liked the fact that I was immersed in the adult world, because what we did is not something children can do. I liked the chocolate coins too. But what I didn't like was the taxes because the price was too high

- I was very impressed by the fact that we were immersed in taxes and anyway it is very good because it teaches you a lot of things

- I learned a lot about taxes and the taxes surprised me a little because they were very high, but in real life I know that you pay a lot more. I thank the professor, the government, the administrators and the collectors. I liked it very much when they counted the coins, the government, the professor, and when we discussed things to propose too

- I really liked this project because it showed us how administrators and governors work

- I thank the professor very much. I really liked the "Nice Taxes" project because I played the part of an adult citizen and I could see how government works

- I really enjoyed being a collector, I liked the part where we decided on the taxes, when we proposed how to spend the money. I thank the professor and I had a wonderful time

- I really liked this project and I wasn't expecting such high taxes. But I have to thank the professor for teaching us new things

- Today I've discovered all the procedures for paying taxes, and I thank the professor for this

- I liked it very much because we identified with the lives of our parents. My thanks go to the professor for the beautiful day he gave me

- It was very good because we were immersed in the real life of adults. I was surprised that taxes are very high, 40%. And it was also strange because the money was chocolate

- I really enjoyed learning how taxes work and I was amazed at how high taxes are, but I was assured that it is to improve the environment

- I liked the "Nice Taxes" project very much even though there were some things I didn't understand. Anyway thanks for coming to explain the nasty taxes to us

- Thank you, I enjoyed this game a lot, I got a lot out of today (March 14th, 2017), this project is beautiful, I hope we will do it again together. I hope to meet you at University

- Thank you for the experience that we had today. It caught my interest. I understood almost everything about taxes because I feel you were able to explain it very well and you also helped us understand how our parents pay and arrange to pay taxes and how they are paid

- Thank you professor for coming to us. I was part of the government and I enjoyed it very much, especially when we had to decide all together

- I loved the "Nice Taxes" project: it was fun, it was very engaging and made me understand, more or less, how taxes, government, collectors and administrators work. Thanks very much!

- Thanks Professor for this very instructive, but at the same time entertaining, experience. I liked the "Nice Taxes" project, and I liked being a member of the government

- Thanks Professor, you gave me an unforgettable lesson today as well as a chocolate euro. I hope your course with your University students goes well. Good luck!

- I really liked it, and I would like to thank you especially for making me understand that taxes are not wasted money as I thought before, as well as for telling me how they work

- Professor, I personally thank you for coming here today because I spent an informative day that will be useful for us in the future

- The meeting we had today at the Town Hall was very interesting. I was struck by how many issues the government has to resolve and how high the taxes are. We were "immersed", let's say, in the adult world, and I learned a lot of things. Lastly, I thank the professor very much for being so helpful and for his teaching. I had a lot of fun

- Dear Professor, Thanks to you I found out what taxes are. This game was good fun, though some people were a bit mean with the chocolate...

- Thank you Professor, for being clear, competent and patient. You taught us some important things while having fun. Bye, and thanks a lot. LL, citizen

- Thanks Professor for explaining how taxes work. I have learned that taxes are a very important thing and also serve to improve our country. It was very interesting and beautiful

- Thank you for teaching us this complicated passage that I personally would not have understood by myself, but also for explaining why taxes exist and are so high. I thank you again for being kind to us and even explaining to us every person's role in this game. MM, an administrator

- Thanks to you, I have learned some important things: I agree with the idea of taxes because they are important for the good of the whole community. I was the Head of Government this morning and I really liked it. I ate a lot of yummy chocolates too. Thank you very much

- Thank you, Professor, because I understand that if you have to pay taxes, they don't go to the Mayor, but to the community, to maintain it and develop it and I thank you because I had fun and I realised that none of the roles is easy

- Thank you for this day where you explained new things about taxes, but also for explaining having fun, playing and not getting bored. Thank you so much for this fun and yummy day (chocolates). Thank you very much, from E.S., governor in the game

- I had a lot of fun today and I learned taxes and played a game, nice taxes

- Thanks for teaching us what taxes are, we had a great time today

- Dear Professor, I wanted to thank you for the things you taught me and for the good game we played. I had a lot of fun playing the game, even though I didn't have a very important part. You were nice and kind, I'm sorry that I will not be there tonight. Goodbye
